Editorial

For years we have been using our internet-update for weekly tile updates and small patches. The upcoming Update 2014-2 has the following innovations: The complete program-update, new tile- and sanitary data will be available for download.

The magazine „News in Update“ will show the content of the update in a PDF file. You can directly start the corresponding video out of this PDF file. We hope you can adopt the current functionalities faster with this new concept.

This time all program extensions, up-to-date tile- and sanitary updates are provided online.

Of course you will continue to receive DVDs in the future if you wish. In this case simply send a request via e-mail to info@visoft.de.

The latest ViSoft projects shown at the end of this brochure can be found in the directory C:\ViSoftCreative\Projekte\Advanced Presentation.

Good luck working with ViSoft Premium 2014-2

Rainer Nissler
CEO ViSoft GmbH

News in Update Online is very simple:

Within the content just click on the chapter which you are interested in and you will automatically jump to the selected page.

If you want to see an extended explanation of the function click on the arrow on the chapter start page and the selected ViSoft Premium video will start.

Click on this arrow on the starting page of a particular chapter to start the video.

New functions: Direct. Quick. Easy.

Content

- 1** Create Elevation Settings
- 2** Automatic + Chain Dimensioning
- 3** Tiling Optimization in 3D
- 4** New Glass & Sliding Doors
- 5** New Windows
- 6** Show in 2D / 3D
- 7** Viewpoints Explorer
- 8** Color Tuning for Tiles
- 9** New High Quality Material
- 10** Modify Objects in 3D
- 11** Copy&Paste Lights and Hollows in 3D
- 12** Place picture in Output

Other Improvements

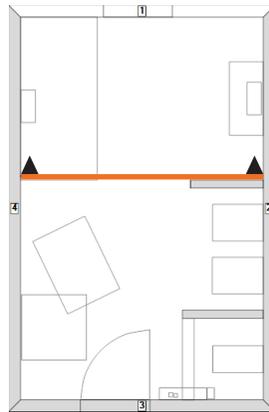

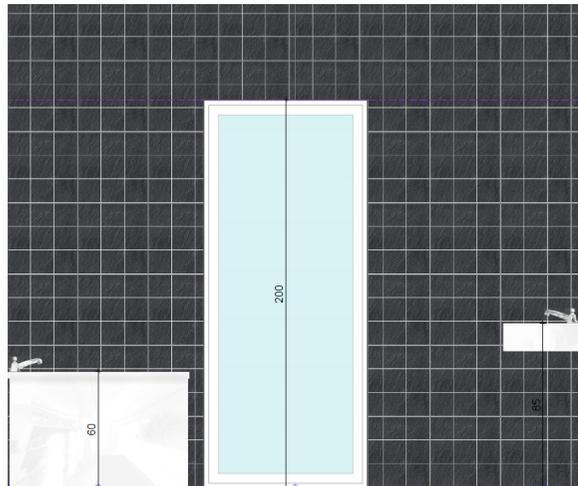

- Improved Navigation
- Classic Furniture
- Draw Grid „Rule of Third“ in 3D
- Additional Drawing Styles for Plans
- Delete all Regions
- Custom Parquet
- Add Parquet to Basket
- Mirroring Objects

Place picture in Output

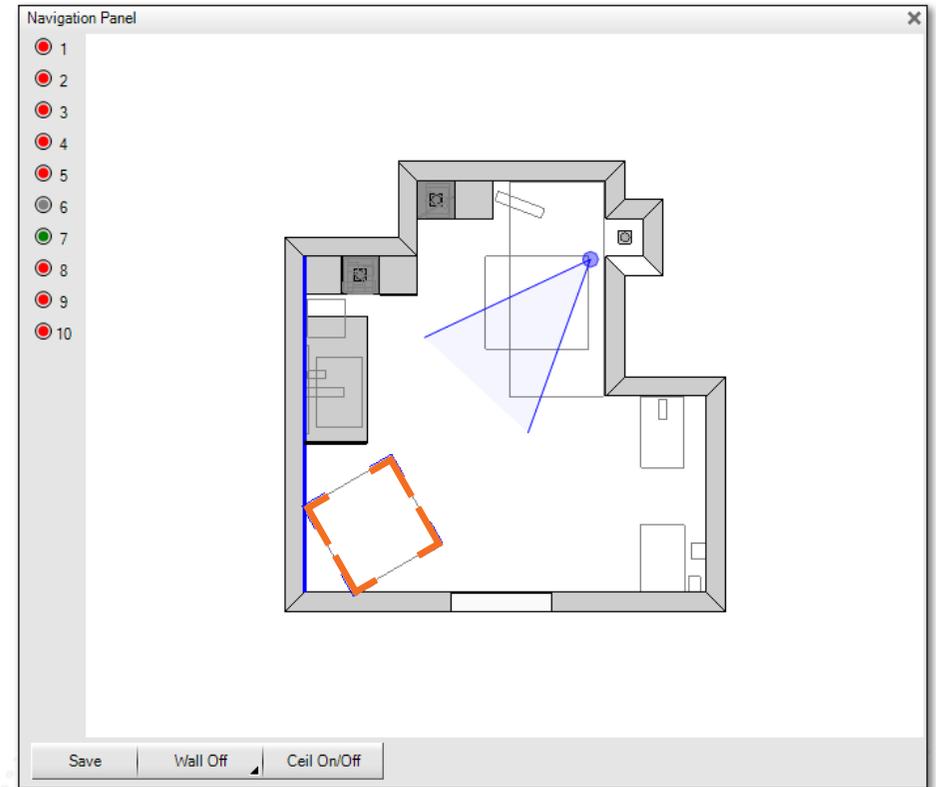

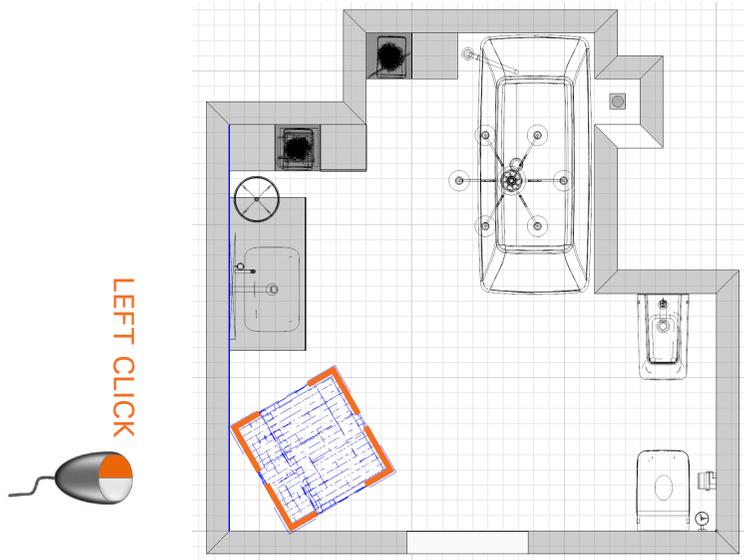

The screenshot displays a software interface for architectural drawing. On the left, a 3D perspective view of a bathroom is shown, featuring a shower, toilet, and sink. Below it is a 2D floor plan of the same room, overlaid on a dark grid. The floor plan includes a light blue rectangular area, possibly representing a door or window. Dimensions are provided for various parts of the room: a vertical dimension of 200 on the left, and horizontal dimensions of 47.5, 100.5, 85, 201.5, 112, and 205 along the bottom. A total horizontal dimension of 299.5 is also shown. On the right side, a floating toolbar is visible, containing several icons and options. The 'Output' tab is active, showing options for 'Plan', 'Part List', and 'Picture Print'. The 'Picture' icon is highlighted. Other icons include 'Dimension', 'Chain Dimension', 'Tile Size', 'Label', 'Library', and 'Create Elevation Page'. Below the toolbar, the 'Dimension Properties' panel is open, showing fields for 'Value' (145 cm), 'Text', 'Shift' (-50), 'Font' (Arial), 'Size' (8), and 'Color'. A 'Delete' button is also present. At the bottom of the toolbar, there are buttons for 'Print Settings...', 'Preview and Print...', 'Auto Dimensioning...', and 'Drawing Styles'.

Place pictures on any output page.

Other Improvements

Improved Navigation

Locate sanitary ware objects in Navigation panel.

Classic Furniture

The image displays two overlapping windows. The left window is a software application titled "Sanitary Browser" showing a product catalog for "ViSoft 360". The catalog is organized into a grid of furniture items, each with a small image and a label. The "Wink armchair" is highlighted with a blue border. A sidebar on the left lists various product categories like "Chairs", "Tables", and "Lamps". At the bottom of the application, there are fields for "Brand: ViSoft Decoration", "Order number", and "Size (mm)", along with buttons for "Find Article...", "Generate Pictures...", "Properties...", "Settings...", and "Extended Info".

The right window is a Google search page for "Wink armchair". The search results are displayed in a grid of image thumbnails. The first row shows several colorful armchairs. The second row shows a white armchair, a dark grey armchair, a black armchair, and a blue and yellow armchair. The third row shows a red armchair, a striped armchair, a colorful armchair, and a black armchair. The fourth row shows a black armchair, a colorful armchair, and a white armchair. The fifth row shows a black armchair, a colorful armchair, and a white armchair. The search results are displayed in a grid of image thumbnails.

Find new classic furniture in ViSoft Decoration.

Draw Grid „Rule of Third“ in 3D

Control composition of your photo with 'Rule of third' grid.

Additional Drawing Styles for Plans

The image illustrates the application of custom drawing styles to architectural plans. It shows a transition from a standard plan to a stylized one with a purple border and green wall/mural areas. A 'Drawing Styles' dialog box is shown, highlighting the 'Filling' section where custom colors for walls and murals can be selected. The 'Filling' section includes options for 'Wall' (Color selected, purple) and 'Mural' (Color selected, green). The software interface on the right shows a 'Plan' tab selected, with various tool icons like 'Dimension', 'Chain Dimension', 'Picture', 'Label', and 'Library'. A 'Drawing Styles' button is visible at the bottom of this interface.

Select custom color for walls and murals on your output plans.
